## Diversification kick-starts

In June CPN announced its plans to expand into hotel and self-storage businesses as part of its long-term business diversification policy under the business model of a retail-led, mixed-use developer. We like the move and reaffirm our BUY call on CPN with a Bt73TP.

### Planning 37 hotels by 2026

In June, CPN announced its plan to expand into the hotel business with a Bt10bn investment budget for 37 hotels in 27 provinces within five years. The hotels would mostly be located in its mixed-use project compounds. Its sister company Central Plaza Hotel (CENTEL TB, BUY, Bt41.75) would manage the hotels under three brands, i.e., Centara (upscale), Centara One (lifestyle midscale) and Go! Hotel (premium budget). With this plan, CPN's hotel portfolio would rise from 560 keys (two hotels) now to over 4,000. The first hotel, Centara Korat, is due to be launched this September, followed by the next two in Ubon Ratchathani and Bowin (an industrial area). CPN expects hotel revenues to grow to 10% of the total in 2026, from 3% in 2019.

### Self-storage business JV

CPN last week invested in a 30% stake in a JV company which is 60%-owned by a leading logistics provider, JWD Infologistics Pcl (JWD TB, BUY, Bt13.20) and 10% by Store It! Management in Singapore. The JV, JWD Store It!, started a few years ago with six branches and combined storage space of 13,000 sqm. CPN plans to help to speed up branch openings in its malls, office buildings, hotels and residential projects. JWD targets nine new branches to reach 15 in total this year. The long-term target is 100,000 sqm of storage space by 2025 and breakeven next year from Bt22/18m losses in 2020/21.

### Flat rent discounts q-q in 2Q22F

Rent discounts in April and May 2022 were flat from 1Q22 at 16% (vs. 41% discounts in 2Q21). That was despite mall traffic improving from 65% of the pre-COVID 2019 level in March to 69% in April and 77% in May driven by higher traffic at tourist malls. The flat rent discount q-q in 2Q22F was below our earlier 12% forecast. We believe it was due to a more cautious consumption outlook amid the inflationary environment and more COVID infections. We revise our rent discount assumptions to 16/15/10% (from 12/8/3%) in 2Q-4Q22F to 13% discount this year and no more next year vs. 34/39% discounts in 2020-21.

### Reaffirm BUY

We trim our 2022-33F earnings by 2% to factor in our new rent assumptions and contribution from the new logistics JV and three hotel investments in 2022-23F (see Exhibit 13 for our earnings revisions). We leave the remaining 34 new hotels as upside. After the revisions, we forecast 134/35/21% core earnings growth for CPN and reaffirm BUY with a new SOTP-derived TP (2023F base year) of Bt73 (from Bt70). We see CPN as a strong post-COVID earnings turnaround play. Three new malls at Sri Racha, Ayutthaya and Chanthaburi opened in 4Q21-2Q22 and they have 80%-plus occupancy rates vs. 65-70% profit break-even levels.

## Planning 37 hotels by 2026

*Diversifying into hotel business with a plan for 37 hotels by 2026*

As part of Central Pattana Pcl's (CPN) vision to become a retail-led mixed-use developer to diversify from its core shopping mall space rental business to supporting businesses of offices, residential projects and hotels located next to its malls, CPN in early June announced a plan to expand into the hotel business with a Bt10bn investment budget for 37 hotels in 27 provinces within five years. The hotels would mostly be located in its mixed-use project compounds. Its sister company Central Plaza Hotel (CENTEL TB, BUY, Bt41.75) would manage the hotels and receive management fees under three brands, i.e. Centara (upscale), Centara One (lifestyle midscale) and Go! Hotel (premium budget). With this plan, CPN's hotel portfolio would increase from 560 keys (two hotels at present; Hilton Pattaya hotel and Centara Udon Thani hotel) to more than 4,000. The first hotel, Centara Korat, is scheduled to be launched this September, followed by the next two in Ubon Ratchathani and Bowin (an industrial area) likely next year. Some other locations in the pipeline are Ayutthaya, Rayong, Sri Racha, Chonburi and Chiang Rai. CPN expects hotel revenues to grow to 10% of total revenues in 2026, up from 3% in 2019. In 2026, it aims for office rental revenues at 8% of the total, and residential revenues of 10% whereas it expects rental income from retail malls to decline to 72% from 85% in 2019.

*We expect half of new hotels to be located next to its malls and support traffic*

With Bt10bn of investment over a five-year period (already included in its Bt118bn five-year capex plan over 2022-26) and small-sized hotels with 100-200 rooms each where half of them would likely be built on existing land bank adjacent to its malls, we don't expect losses in the first few operating years to be material compared to CPN's net profit of Bt9.3bn-15.9bn in 2022-26F. We see benefits from them being mixed-use projects in that they would help to boost traffic at CPN's malls and vice versa which would be positive for its malls' rental rate increases as well as tenant retention.

*The first three hotels should contribute small losses, at less than 1% of 2022-25F profit*

We factor the first three hotels into our projections with a combined loss of Bt21/46/39/22m in 2022-25F (less than 1% of net profit in those years) and profit contributions from 2026F based on a 60-70% profit break-even occupancy rate. In normal years before COVID, mid-scale hotels would normally take an average of two years before making profits.

## Self-storage business JV

**Partnering with JWD by investing 30% in JWD Store It!**

On 30 June, CPN invested Bt100m for a 30% stake in a JV which is 60%-owned by a leading logistics provider JWD Infologistics Pcl (JWD TB, BUY, Bt13.20) and 10%-held by Store It! Management in Singapore. The JV, JWD Store It!, started a few years ago. As of 1Q22, it had six branches – five in Bangkok at Siam, Srikreetha, Thiam Ruammit, Ramintra and Rama 9 and one at Patong in Phuket – with combined storage space of 13,825 sqm and 55% average occupancy. It offers self-storage facilities mostly on a monthly basis with 24/7 access. It made a net loss of Bt17.7m in 2021 and Bt21.9m in 2020.

CPN plans to help speed up branch openings in its malls, office buildings, hotels and residential projects in over 30 provinces and expand to tap a wide range of customers including B2B and B2C customers such as mall tenants who want to store products/equipment, condominium residents and hotel guests. JWD targets nine new branches to reach 15 in total this year. The long-term target is 100,000 sqm of storage space by 2025. As its break-even level is at 60% occupancy, it targets to break even next year. As it is in an expansion period and it may take some time to ramp up occupancy, we estimate the JV to make losses of Bt25/10m in 2022-23F and break even in 2024F. The 30% shared loss for CPN is minimal at Bt4/3m in 2022-23F. Though future profit contributions look small, we view this self-storage business as complementary to CPN's businesses in accommodating its customers and creating a strong ecosystem.

## Flat rent discounts q-q in 2Q22F

**2Q22F rent discounts are maintained from 1Q22 on consumption caution**

Rent discounts in April and May 2022 were flat from 1Q22 at 16%. That was despite mall traffic improving from 65% of the pre-COVID 2019 level in March to 69% in April and 77% in May, driven by higher traffic at tourist malls. The flat rent discounts q-q in 2Q22F were below our earlier 12% projection, likely a result of a more cautious outlook on consumption during the inflationary environment and more COVID infections. But this doesn't change the strong business recovery trend and we expect a sharp fall in rent discounts y-y from discounts of 41% in 2Q21 to 16% in 2Q22F. We revise up our rent discount assumptions to 16/15/10% (from 12/8/3%) in 2Q-4Q22F to 13% discount this year (10% previously) and no more discounts next year vs. 34/39% discounts in 2020-21.

## Reaffirm BUY

**BUY as a strong turnaround play with a higher Bt73 SOTP-based TP**

Incorporating our new, lower rent assumptions and the contribution from its recent 30% investment in the logistics JV and three hotels in 2022-23F, we trim our earnings by 2% in 2022-33F. Exhibit 13 shows our earnings revisions. We leave the remaining 34 new hotels as potential upside. After the revisions, we estimate 134/35/21% normalized earnings growth and reaffirm our BUY rating on CPN with a higher SOTP-based 12-month TP (rolled over to a 2023F base year) of Bt73/share (from Bt70 previously). We see CPN as a strong post-COVID earnings turnaround play driven by falling rent discounts or rental rate increases and mall expansions. It resumed mall openings in 4Q21. Three new malls at Sri Racha (launched in October last year), Ayutthaya (November 2021) and Chanthaburi (May 2022) were opened during 4Q21-2Q22 and they have more than 80% occupancy rates vs. their 65-70% profit break-even levels. As of 2Q22, CPN was operating 36 shopping malls in Thailand and one in Malaysia.

## THANACHART'S SWOT ANALYSIS

## S — Strength

- Market leader with the most proactive expansion plans.
- The major shareholder, the Chirathivat family, has many businesses under its wing, mostly retail. Thus, a certain occupancy level is secured prior to project launches.
- Prime locations secured in Bangkok and first-tier provinces.

## O — Opportunity

- Expansion into second-tier provinces and Bangkok's suburbs.
- Opportunities to expand shopping malls in markets abroad, particularly Southeast Asian countries.

## W — Weakness

- Highly capital-intensive business.
- Long payback period.

## T — Threat

- Indirect competition from hypermarkets, especially upcountry.
- Risk of leasehold projects not being renewed.

## CONSENSUS COMPARISON

## HOW ARE WE DIFFERENT FROM THE STREET?

- Our 2022-23F net profits are in line with the Bloomberg consensus numbers.
- Our SOTP-derived TP is 7% above the Street's likely as we roll over our valuation base year to 2023F.

## RISKS TO OUR INVESTMENT CASE

- A slow economy would affect purchasing power, CPN's ability to increase rental rates, occupancy, and branch expansion, and represents the key downside risk to our call.
- Future unexpected events such as the closure and fire incidents at CentralWorld in the past would cause an earnings hiccup, and present a secondary downside risk.

**Recommendation Structure:**

Recommendations are based on absolute upside or downside, which is the difference between the target price and the current market price. If the upside is 10% or more, the recommendation is BUY. If the downside is 10% or more, the recommendation is SELL. For stocks where the upside or downside is less than 10%, the recommendation is HOLD. Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on the market price and the formal recommendation.

For sectors, an "Overweight" sector weighting is used when we have BUYs on majority of the stocks under our coverage by market cap. "Underweight" is used when we have SELLs on majority of the stocks we cover by market cap. "Neutral" is used when there are relatively equal weightings of BUYs and SELLs.
